DEC 6 2004

Sir:

Applicants respectfully request a corrected publication of the above-listed application pursuant to 37 C.F.R. § 1.221(b) due to a material mistake made by the Office. In particular, claims 2-15, 33-47, 49-62, 64-67, 79-102, 104-120, and 122-138 as originally filed were not published.

It appears that the publication is based on Applicants' Preliminary Amendment filed June 23, 2004. Applicants understand that changes to Rule 1.215 of 37 C.F.R. as published in the Federal Register published September 21, 2004 (69 FR 56481) would permit the publication of the application as amended by Preliminary Amendment.

However, this rule did not go into effect until October 21, 2004, two weeks after the publication of the present application (69 FR 56481, 56482). Therefore the new version of 37 C.F.R. § 1.215 should not apply and the claims of the application should have published as filed.

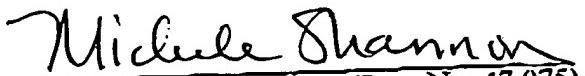

VIA FACSIMILE DECEMBER 6, 2004

The above mistake is apparent from the Office records, as the application as filed contained 138 claims. Moreover, the above mistake could be material, as the full scope of the entire set of claims as filed cannot be determined from the publication. Thus, this error affects the scope of provisional rights accorded Applicants under 35 U.S.C. § 154(d) based on the instant publication. Additionally, the mistake in the claims could undermine the strength of the publication as a prior art reference, since a U.S. Patent Application Publication must claim the same invention in order to prevent others from submitting an Affidavit or Declaration of Prior Invention under 37 C.F.R. § 1.131.

Accordingly, Applicants respectfully request that a corrected publication of the above-listed application be made pursuant to 37 C.F.R. § 1.221(b).

No fee is believed due for this submission. In the event that a fee is required in connection with this submission, please charge the required fee to Deposit Account No. 08-3425.

Respectfully submitted,
